

TREA0040 Electric actuators are the most commonly used control elements in valve control such as ball valve, butterfly valve and plug valve.

TREA0040 ELECTRIC ACTUATOR	
Body Ingress Protection	IP67
Body Material	Aluminum Die Cast
Body Coating	Electrostatic Powder Coat
Power Source	85-265VAC and 24VDC
Control Signal	On /Off control with 24 VDC
Adjustable Max. Valve Degree	Between 0° - 105° adjustable special valve degree
Motor	24V DC 6W Brushed Motor
Limit Switches	2x Open/Close SPDT, Max 250VAC 5A
Aux. Limit Switches	2x Open/Close SPDT, Max 250VAC 5A
Position Indicator	Open/Close Continuous
Manuel Control	With Handwheel
Cable Entrances	M20x1,5
Ambient Temperature	-20°C to +60°
Operation Time	14 Sec./ 90

OPTIONAL FEATURE
ATEX Certificated Electric Actuator (Ex d IIB T4)
